

50. The immunoregulator of claim 6 wherein said active component stimulates interleukine-4 production of splenocytes obtained from a non-obese diabetes (NOD) mouse.

51. The immunoregulator of claim 6 wherein said active component reduces ASAT plasma levels after or during organ failure.

Remarks

The application is to be amended as previously set forth. All amendments, including claim cancellations, are made without prejudice or disclaimer. The amendments are made to bring the application closer to United States practice, such as, by example, removing multiple claim dependencies.

If questions exist after consideration of the foregoing, the Office is kindly requested to contact the applicants' representative at the address or telephone number below.

Respectfully submitted,

Allen C. Turner
